Turn Your Surplus Assets Into Revenue:

How to Sell Excess Equipment to mLab Supply

When your lab or business accumulates **excess equipment**, it doesn't just take up space — it ties up capital that could be put to better use. Whether you're upgrading, downsizing, or liquidating, **mLab Supply** makes it simple to **sell your lab equipment** and recover its value through our streamlined purchasing and consignment programs.

With our network of global buyers and expertise in laboratory, analytical, and industrial equipment, we help you turn idle assets into immediate capital — **without the hassle of selling independently**.

Step 1: Assess Your Equipment

Start by reviewing your current inventory to identify items that are no longer needed. This might include analytical instruments, microscopes, balances, centrifuges, or spare parts sitting unused in storage.

When assessing your items:

- **Condition:** Note if they're working, need calibration, or for parts.
- **Brand & Model:** Include manufacturer and model details for accuracy.
- **Accessories:** Manuals, power cables, and attachments can increase value.

Step 2: Submit Your Equipment to mLab Supply

Once you've identified what to sell, submitting your items is quick and simple:

- **Gather details** – Include make, model, condition, and clear photos.
- **Submit your list** – Use our *Sell to Us* form or email our purchasing team directly.
- **Receive your quote** – Our specialists will assess your items and provide a **no-obligation quote**or consignment recommendation within a short turnaround.

If you're managing a **large lab decommission or full facility liquidation**, we can arrange on-site evaluations and logistics support.

Step 3: Get a Quote and Choose the Best Sales Channel

After review, our team will recommend the best strategy to help you **maximize your recovery value**:

- **Direct Purchase:** Get a fast, fair market offer with quick payment and no waiting.
- **Consignment Sale:** We handle marketing, listing, and selling through our network — ideal for higher-value or specialized equipment.
- **Managed Auction Option:** For time-sensitive liquidations, we coordinate auction listings on your behalf to reach competitive bidders quickly.

You choose what works best for your timeline and goals — and we handle the rest.

Step 4: Prepare for Pickup or Shipping

Once you accept an offer, mLab Supply makes the logistics effortless:

- We can **arrange pickup or freight** for large or bulky items.
- For smaller items, we provide **shipping labels and packing instructions**.
- All received items are verified promptly for accuracy and fast payment.

Step 5: Get Paid

After your equipment is received and verified, payment is issued quickly through your preferred method. If your items are on consignment, we'll keep you updated throughout the process and issue payment as soon as the sale completes.

Why Sell Through mLab Supply?

mLab Supply isn't just another marketplace — we're your **trusted partner for lab asset recovery**. Our buyers span research, biotech, education, and industrial sectors globally, giving your equipment maximum exposure and value.

What you get when you sell to mLab Supply:

- Fast, fair evaluations from industry specialists
- Hassle-free pickup, packing, and logistics
- Global buyer reach and optimized resale channels
- Transparent communication and prompt payment
- Options for bulk, consignment, or liquidation sales

We make selling simple, so you can focus on what's next for your business or lab.
